Mr. Harold Weisburg
R.D. #7
Frederick, Maryland

Dear Mr. Weisburg,

I'm writing in regard to your recent appearance on the Phil Donahue Show. You suggested a gentleman caller write to C.D.S. for a report on their findings of the assassination. I am aware that no matter how much or what I write, I'll probably never get to see the actual findings - but I'd like to try.

I find the reports, etc. that are being written about the assassination are so different from the Warren Report it's almost funny! How could men look at certain facts and all come up with different views?

You are a most fascinating person and I have written to Phil thanking him for your appearance.

Could you please supply the

name and address of the CBS office. I should write to you their report? Also any other information you could pass along pertaining to the death of President Kennedy would be appreciated.

Can you tell me why the Life editor refuses to turn over the films they purchased? I believe this editor's name is Dr. Hunt, and I think Mr. Hunt is doing a great wrong to the American people by withholding this piece of history.

I'm afraid my claim to fame will never shake the world - I'm a home-maker (-not a housewife!) with two wonderful sons. But I am very interested in Nov. 22nd and the history that day brought forth. So curiosity is my "Problem", and for any help you can give, I thank you.
